

PLEASE keep the Indiana Law in place. I do not wish to receive any more calls than what I have too. It is very inconvenient when I am in the middle of something, and a telemarketer calls, or when I am resting -- due to being sick, after a long trip, after a very busy day, and the phone rings...just to find it is a telemarketer. I would appreciate NOT having a lower standard that would allow some telemarketers to get thru! Thank you...
